

LK DOMAIN REGISTRY

Your Sri Lankan Identity in Cyberspace

Corporate
Profile

ENABLING BUSINESSES
TO **BUILD THEIR IDENTITY**
IN CYBERSPACE.

Who are WE?

Sri Lankan Cyber Enablers

The LK Domain Registry was established in 1990. Since its inception, it has served the country not only by providing a professional domain registration service, but also by facilitating development of Internet infrastructure to improve the Internet in Sri Lanka.

We are the country code top-level domain (ccTLD) for Sri Lanka. Individuals, businesses, religious bodies and non-profit organizations have adopted .lk web addresses to make their mark on the Internet.

Why .LK?

The LK Domain Registry is the sole administrator for web addresses that end in “.lk” in Sri Lanka.

As the national-level domain name a “.lk” domain provides Sri Lankan organizations and individuals with their unique brand identity on the internet.

We register a wide range of domain names including the top-level domains **.lk, .com.lk, .web.lk, .org.lk, .edu.lk and .hotel.lk**

Why does my business need a .LK domain?

You probably have a website and may be you have opted for a .com or .net. But if you don't have the .LK domain for your business you are missing out on a crucial information asset for your business.

People will search for **yourbusinessname.LK, Are you there?**

When your business grows if someone else owns your domain name it will be a challenge to re-allocate it ? Make the smart move now.

But WAIT!

Do I have to give up my current .com if I want a .lk domain ?

NOT AT ALL! You can purchase your .lk domain name and redirect the website to your current .com (or any other suffix such as .net / .org) website.

Our Affiliations:

What We Do

Domain Registration

Obtaining the required .lk domain is the first step towards your digital identity.

Hithawathi

Your Confidante in Cyber Space

Funded by LK Domain Registry

This project titled as "Hithawathi-Your Confidante" which was initially commenced in January 2014. Hithawathi project is a **help desk designed for the victims and casualties of technology / internet related activities.**

By now Hithawathi has developed and empowered with more features and facilities. The state-of-the-art website, UpToDate content and guidelines, online chat feature, a permanent hotline contact number, email address to be contacted, and a complaint management system are some of the features and facilities.

Hotline is handled by female officers that intend to serve especially female victims, who will get the opportunity to talk to them more comfortably and openly rather than talking to a male officer.

Phone : 0114 216 062

Email : help@hithawathi.lk

Web : www.hithawathi.lk

A project by Training Division of LK Domain Registry focused on assisting in the development of ICT literacy in the Sri Lankan community. The Division conducts awareness and training programs island-wide in schools, universities, educational institutions, government departments, private sector organizations, etc.

Some of the most commonly conducted training programs ;

- Web Designing using Joomla Content Management System
- Python Programming
- Scratch Programming
- Pascal Programming
- Safe use of Internet

These programs can be customized to meet your students'/employees' needs and will be conducted as seminars/workshops.

Please send your request for training sessions/public seminars with contact details to training@domains.lk
